

DOMESTIC & COMMERCIAL SURFACE CLEANER

Loncin **slipStream**[®] Pro 20 X

Take patio and driveway cleaning to the next level with the Loncin Slipstream Pro 20 X. Containing all the features of our highly successful Pro 20, as well as a convenient key start feature for ease of use, this system comes with a 22" triple head Surface cleaner. The Pro 20 X also features an upgraded pump that moves 18 LPM of water per minute.

The 22" surface cleaner is powered by an ever-reliable Loncin petrol engine with a 2:1 gearbox fitted between the engine and the pump to prevent the pump from over-revving. This enables a pressure of up to 2900 pounds per square inch, and maxing out at 210 bar. Other functions include a low-oil shutdown, return to tank bypass and adjustable pressure regulator to give you full control of the machine.

The included flow controller will also give you complete control over your cleaning and allow for alterations depending on your cleaning needs. Additionally, it also features an easy bleed valve for quick priming of the surface so that you have everything you could possibly need.

This package comes complete with a variable fan lance, power hose and suction/return hose. The suction/return hose has a weighted filter so that particles do not enter your machine and cause damage, thus prolonging and protecting your surface cleaner.
